POINT OF SALE

FROM DINING ROOMS TO SNACK BARS, AND EVEN YOUR PRO SHOP, THIS POINT OF SALE MEETS ALL OF YOUR NEEDS.

The Point Of Sale system from Jonas Club Management allows for the creation of an unlimited amount of menus and nested menus, grants easy access to member preferences and even enables pre-event chit setup for quick and easy processing at a later time. All of these features, and many more, are made available through complete integration with the rest of your Jonas Management system.

INTEGRATION

Complete system integration is instrumental in the successful operations performed by the Jonas Point Of Sale system. Integration to Club Management, Accounts Receivable, Banquet & Catering, Inventory and more, enable features within Point Of Sale such as:

- *When chits are processed at your Point Of Sale, all the information flows directly to your Accounts Receivable application.*

- *Credit card payments through secure third party providers.*

- *Automatic stock depletion when items are sold through your Point Of Sale.*

- *Easy access to member details at your Point Of Sale, which are pulled directly from your Club Management application.*

- *Issue and redeem Gift Cards, Gift Certificates and Account Credits directly through the Point Of Sale workstation.*

- *Generate reports by item, sales category, sales report group, cash summary, general status, rounds of golf played, sales by inventory item and much more.*

FEATURES & HIGHLIGHTS

- *View a member's picture and any of the 300 custom fields that you create (ie meal/drink preferences, allergies) directly on the main Point Of Sale screen.*

- *Create an unlimited number of custom designed menus, sub menus, and even upload and use your own custom buttons/brand logos.*

- *Create individual chits for each member at a table and submit them all to the kitchen as a single order.*

- *Create and view your dining room seating arrangement directly on the Point Of Sale screen.*

- *Have item prices change automatically during a specific time of day, either indefinitely, or during a specified date range.*

- *Have custom menus designed for servers, or even for specific members.*

- *Split chits in multiple ways including by item, percentage, amount, seat, or evenly.*

- *A one click end of day function automatically updates all member accounts, General Ledger accounts and Inventory.*

- *View a member's minimum amount left to spend for the month.*

- *Recall a member's chit history to order their favorite menu item.*
